Form completed by:

Name:

Incident/Sector Situation Report

Guidance Notes

1	Mark the box with an 'x' if the intended use of this form is to provide a situation report of the whole incident
2	Mark the box with an 'x' if the intended use of this form is to provide a situation report of a specific sector
3	If this is a situation report of a sector, state the Sector's code (e.g. Letter)
	If this is a situation report of a sector, state the Sector's name, if given.
5	Start date of the current operational reporting period; day shown as a number, month shown by three letters e.g. 12 NOV
6	Start time of the current operational reporting period; 24hr clock local time
7	End date of the current operational reporting period; day shown as a number, month shown by three letters e.g. 12 NOV
8	End time of the current operational reporting period; 24hr clock local time
9	Number of USAR teams in incident/sector according to INSARAG guidelines
10	Total number of identified worksites within incident/sector with or without operations in the current reporting period
11	This section is used to summarize the current situation of the worksites in the incident/sector Total: Is the total worksites in the incident/sector in their respective current status, that being active, pending or complete -ASR3, ASR4. ASR5: Assessment, Search and Rescue Levels of the Worksites as defined in
	the INSARAG Coordination Handbook
12	Number of Worksites with active USAR operations in the current reporting period, detailing the number of worksites per ASR level.
13	Number of Worksites with pending USAR operations in the current reporting period, detailing the number of worksites per ASR level.
14	Number of Worksites with completed USAR operations in the current reporting period. Only the furthest ASR level that has been completed at the worksites must be recorded.
	furthest ASR level that has been completed at the worksites must be recorded. Victim information incident/sector
	furthest ASR level that has been completed at the worksites must be recorded. Victim information incident/sector -Current period: victims recorded in the current reporting period
15	furthest ASR level that has been completed at the worksites must be recorded. Victim information incident/sector -Current period: victims recorded in the current reporting period -Overall: accumulated number of victims recorded since the USAR operation begun.
15 16	furthest ASR level that has been completed at the worksites must be recorded. Victim information incident/sector -Current period: victims recorded in the current reporting period -Overall: accumulated number of victims recorded since the USAR operation begun. Number of live victims rescued in the incident/sector
15 16	furthest ASR level that has been completed at the worksites must be recorded. Victim information incident/sector -Current period: victims recorded in the current reporting period -Overall: accumulated number of victims recorded since the USAR operation begun. Number of live victims rescued in the incident/sector Number of dead bodies recovered in the incident/sector
15 16	furthest ASR level that has been completed at the worksites must be recorded. Victim information incident/sector -Current period: victims recorded in the current reporting period -Overall: accumulated number of victims recorded since the USAR operation begun. Number of live victims rescued in the incident/sector
15 16 17 18	furthest ASR level that has been completed at the worksites must be recorded. Victim information incident/sector -Current period: victims recorded in the current reporting period -Overall: accumulated number of victims recorded since the USAR operation begun. Number of live victims rescued in the incident/sector Number of dead bodies recovered in the incident/sector Other on-going activities in the incident/sector (e.g. Engineering assessment of critical infrastructure within the sector) Safety issues to be reported in the incident/sector
15 16 17 18	furthest ASR level that has been completed at the worksites must be recorded. Victim information incident/sector -Current period: victims recorded in the current reporting period -Overall: accumulated number of victims recorded since the USAR operation begun. Number of live victims rescued in the incident/sector Number of dead bodies recovered in the incident/sector Other on-going activities in the incident/sector (e.g. Engineering assessment of critical infrastructure within the sector) Safety issues to be reported in the incident/sector Security situation to be reported in the incident/sector
15 16 17 18	furthest ASR level that has been completed at the worksites must be recorded. Victim information incident/sector -Current period: victims recorded in the current reporting period -Overall: accumulated number of victims recorded since the USAR operation begun. Number of live victims rescued in the incident/sector Number of dead bodies recovered in the incident/sector Other on-going activities in the incident/sector (e.g. Engineering assessment of critical infrastructure within the sector) Safety issues to be reported in the incident/sector
15 16 17 18 19 20 21	furthest ASR level that has been completed at the worksites must be recorded. Victim information incident/sector -Current period: victims recorded in the current reporting period -Overall: accumulated number of victims recorded since the USAR operation begun. Number of live victims rescued in the incident/sector Number of dead bodies recovered in the incident/sector Other on-going activities in the incident/sector (e.g. Engineering assessment of critical infrastructure within the sector) Safety issues to be reported in the incident/sector Security situation to be reported in the incident/sector Start date of the next operational/reporting period; day shown as a number, month shown by
15 16 17 18 19 20 21	furthest ASR level that has been completed at the worksites must be recorded. Victim information incident/sector -Current period: victims recorded in the current reporting period -Overall: accumulated number of victims recorded since the USAR operation begun.
